COMMISSIONERS: Liz Wynn, Chris Gomez, Brett Taylor, Marvin Hansen, Sarrah Peariso

MONDAY, APRIL 27, 2020 AT 6:00 P.M., COUNCIL CHAMBERS, 707 W. ACEQUIA, VISALIA CA

1. THE PLEDGE OF ALLEGIANCE –
2. CITIZEN'S COMMENTS - This is the time for citizens to comment on subject matters that are not on the agenda but are within the jurisdiction of the Visalia Planning Commission. You may provide comments to the Planning Commission at this time, but the Planning Commission may only legally discuss those items already on tonight's agenda.

For those watching via the Facebook Live stream who want to provide citizen comments, please begin your comment with, "Citizen Comment" so that we understand it is a comment that you wish to be shared with the Planning Commission and is a comment that you would share publicly if you were attending the meeting in-person.

The Commission requests that a five (5) minute time limit be observed for Citizen Comments. You will be notified when your five minutes have expired.

3. PUBLIC COMMENT – To be sure that your comments are received, we strongly encourage citizens to submit public comment, or comment on a specific agenda item, before the meeting via email to Susan.Currier@visalia.city. All emailed public comments will be distributed to the Planning Commission prior to the start of the meeting and incorporated into the official record.

Opportunity to comment is planned to be available on the Facebook livestream, but cannot be guaranteed to be available. In the event it is necessary, phone access may be provided at (559) 713-4165. However, this line will only be available if comments cannot be accepted via Facebook.

The public may present comments to the Planning Commission at the Council Chambers during the meeting, but physical attendance at the Council Chambers is strongly discouraged pursuant to the Governor's Executive Orders and public health guidance during the COVID-19 situation, and social distancing will be enforced. (The Planning Commission will NOT be present in the Council Chambers.)

4. CHANGES OR COMMENTS TO THE AGENDA –

5. CONSENT CALENDAR - All items under the consent calendar are to be considered routine and will be enacted by one motion. For any discussion of an item on the consent calendar, it will be removed at the request of the Commission and made a part of the regular agenda.

Re: Presentation of the 2019 Housing Element Annual Progress Report (APR) and Program Reporting

Staff Recommendation

Staff recommends that the Planning Commission receive the 2019 Housing Element Annual Progress Report. This report has been accepted by the City Council on March 16, 2020, and submitted to the State Department of Housing and Community Development (HCD) in accordance with State law, prior to the April 1, 2020 deadline.

Summary

Pursuant to State Housing Law (Government Code Section §65400), cities and counties are required to report their progress on implementing their current Housing Elements. The report includes a summary of the jurisdiction's housing activity, progress in reaching their Regional Housing Needs Assessment (RHNA) assessment by income level, and progress in implementing its Housing Element's goals and programs. The report is a useful tool for City officials, staff, citizens, and stakeholder groups interested in the City's housing trends, particularly as they relate to affordable housing.

The report demonstrates that the City is in compliance with all applicable State laws and policies pertaining to housing, and that the City is implementing its housing policies and programs as articulated in its 5th Cycle Housing Element adopted in 2016. This report reviews the current status of programs from the 2016 Update rather than the recently approved 2019 Update, since the former was in effect for most of the 2019 calendar year.

Background Discussion

The 2019 APR forms and tables are largely unchanged from the previous year's format. The APR continues to require reporting of all "considered" housing projects (i.e. potential projects submitted to the Site Plan Review Committee) as well as completed entitlements or permits for each individual housing unit, including those within the Above Moderate income level. Jurisdictions report these units to gain credit against their RHNA housing unit requirements.

All residential building permits must be tracked through to their final grant of occupancy. Only units that receive occupancy during the 2019 calendar year reporting period are counted toward the jurisdiction's RHNA allocation. Notwithstanding the interest in the jurisdiction's performance on providing affordable housing to lower income households, the APR requires detailed permit information on all residential units.

The contents of the APR are described below along with their applicability to the City of Visalia.

	Table Name	Notes
Table A	Housing development applications submitted	Lists all applications received and deemed complete in 2019. This entails Site Plan Review applications receiving a "Revise & Proceed" and follow-up entitlements if necessary.
Table A2	Annual building activity report summary	Lists all issued entitlements (i.e. SPR, CUP), issued building permits, and certificates of occupancy in 2019.
Table B	RHNA Progress	Summary of permits issued by income level in each year of RHNA allocation.
Table C	Sites identified / rezoned to accommodate shortfall housing need	N/A for Visalia. The City maintains a surplus in all levels.
Table D	Program implementation status	Reports on all 5 th Cycle Housing Element programs.
Table E	Commercial development bonuses approved	N/A for Visalia. No such applications received in reporting period
Table F	Units rehabilitated, preserved and acquired for alternative adequate sites	N/A for Visalia. Optional table.
Table G	Locally owned lands included in Housing Element sites inventory that have been sold, leased, or disposed	N/A for Visalia.
Summary	Summary of data from preceding tables	Summary of data from preceding tables.

Comparative data sets between the 2018 and 2019 APR submittals are shown in the tables below:

Building Permits by Residential Type	2018	2019
# units in permits issued for Accessory Dwellings	2	4
# units in permits issued for Single-Family Dwellings	504	633
# units in permits issued for Multi-Family Dwellings	74	61
TOTAL	580	698
# units granted occupancy for Accessory Dwellings	1	1
# units granted occupancy for Single-Family Dwellings	480	529
# units granted occupancy for Multi-Family Dwellings	38	72
TOTAL	519	703

Issued Building Permits by Affordability Level	2018	2019
Above Moderate (>120% AMI)	391	169
Moderate (80 - 120% AMI)	102	463
Low (50 - 80% AMI)	87	46
Very Low (30 - 50% AMI)	0	20
Extremely Low (<30% AMI)	0	0
TOTAL	580	698

The following points provide further summarize information contained in the report:

- The 61 multi-family units that were issued permits are all classified as affordable to lower income categories (Very Low and Low) based on the projects' underlying zone density. None of these units are deed restricted or benefit from participation in the City's affordable housing incentives and concessions provisions (Zoning Ordinance Section 17.32.170 et. seq.).
- A total of two single-family residences and three accessory dwelling units were issued permits and are classified as affordable to lower income (Very Low, and Low) categories based on total valuation of the permit and number of bedrooms.
- A total of 463 single-family residences are classified as affordable to the Moderate Income category, and 169 single-family residences are classified as affordable to the Above Moderate Income category, based on total valuation of the permit and number of bedrooms.
- It should be noted that for the 2019 year, staff utilized a different method of calculating mortgage affordability. For 2019 affordability was determined based on an affordability calculator made available by State HCD through their website, whereas for 2018 staff utilized an affordability calculator with different input values recommended by a local mortgage lender. The change in this year's reporting resulted in raising the threshold for Above Moderate income households, resulting in significantly more households being affordable to Moderate income households.
- Applications reflecting a total of 136 units have been submitted and deemed complete in 2019. This number is comprised of all applications that have been formally submitted and determined complete. This can include Site Plan Review applications for by-right uses receiving a "Revise & Proceed" as well as entitlements (e.g. Tentative Subdivision Maps, and Tentative Parcel Maps). The number is significantly lower this year than in past years due to only one subdivision completed this year (the 34-unit Walnut Park Estates Tentative Subdivision Map).

Regional Housing Needs Assessment (RHNA) Compliance

There were no discretionary actions that affected the City's RHNA obligations. Consequently, the RHNA remains in compliance with the Housing Element and State law.

Annual Report on Conditional Use Permit Process for Multi-Family Projects

Program 1.4 in the Housing Element states requires that the City annually assess the Conditional Use Permit (CUP) process for multi-family residential projects greater than 80 housing units to ensure that the entitlement process does not adversely impact the timing, cost, or supply of multi-family development. Such assessment shall be provided to the Planning Commission.

In the 2019 calendar year, the Planning Commission considered one CUP for a multi-family project greater than 80 units:

- Conditional Use Permit No. 2019-40: A request by Self-Help Enterprises to develop a mixed-use project consisting of an 81-unit multi-family component. The project included seven artist live/work lofts, 73 one and two-bedroom units made affordable to Low Income households with up to 30% of the units reserved for supportive housing, and one manager's unit. The site is located in the Downtown Mixed Use zone district, on the north side of Oak Avenue between Garden and Bridge Streets. (APN: 094-283-001). The Planning Commission considered and approved this CUP on December 9, 2019.

For the above project, a Conditional Use Permit is required for any residential development located within a non-residential zone district. Housing Element Program 2.6, to be fulfilled by year 2021, would process a Zoning Text Amendment to make residential a by-right use in the Mixed Use zone district, provided that the project is able to meet performance standards (performance standards would be drafted as part of the Amendment). With regards to timing, this project was received on October 18, deemed complete on October 29, and received a public hearing on December 9 (52 days from receipt), which is less than the estimated 2 to 3 month total processing time for this project as indicated in Housing Element Table 1-51. Additionally, the CUP process and the associated cost was not considered a deterrent to the number of units associated with the project since the applicant was able to achieve the desired unit count and product type associated with their application.

Annual Report on CUP Requirement Impacts on Affordable Housing

Program 9.4 in the 2019 Housing Element states requires that the City monitor every proposed development on RHNA land inventory sites to ensure that the effects of processing a CUP, when required, does not unreasonably delay entitlement processing, increase development costs in a manner that eliminates potential affordability, or affect potential development density. The City must annually report to the Planning Commission the effect of CUP requirements compared with comparable "permitted by right" projects. This is to ensure that the CUP processing and conditions do no adversely affect the project's affordability.

In the 2019 calendar year the City processed one CUP on a RHNA land inventory site – the Old Lumberryard site – which was the location of CUP 2019-40 described above. The site was inventoried in the 2016 Housing Element for 60 units serving Low Income households, and the CUP approved 80 deed-restricted Low Income units on the site plus a manager's unit. As stated in the analysis for Program 1.4, this project's entitlement

timeframe, cost, and density were not adversely affected by the CUP process. No comparable permitted by-right project could be found for this project based on several unique attributes of the project (i.e. mixed-use, commercial zoning, unit count, deed restriction). The project's CUP requires the project to conform to the applicant's submitted site plan, elevations, and operational statement, and comply with conditions associated with the site's commissioned historic review, all of which the applicant consented to. Otherwise, the CUP does not impose any conditions beyond the development standards contained in the Zoning Ordinance.

Annual Report on Incentives for Infill Affordable Housing

Program 2.5 in the 2019 Housing Element requires that the City annually report to the Planning Commission projects that meet the threshold criteria and take advantage of the Affordable Housing Infill Incentive Program. This program reduces Transportation Impact Fees up to 60% of the base fee for residential projects in qualifying infill sites. This program became effective November 16, 2017, in fulfillment of a previously-established Housing Element Program.

In the calendar year 2019, there were no projects that were issued building permits and took advantage of this Program.
