

PUBLIC WORKS INSPECTOR

\$4,981 - \$6,262 MONTHLY

The Position

The selected candidate will be responsible for the inspection of a variety of public works construction projects implemented through the City's Capital Improvement Program, Private Development, and through the issuance of encroachment permits. The Public Works Inspector will ensure the quality of workmanship and materials used in public works projects and that they are in conformance with plans, specifications, codes and regulations, and industry practices. This position will also assist with project administration activities.

The Division

The City of Visalia's Engineering Division is part of the Public Works Department and serves the community by providing a wide range of engineering services such as

- Project and construction management
- Surveying
- Traffic engineering
- Encroachment permits
- Inspection

The Division's staff of engineers, technicians, surveyors, inspectors, and administrative staff are committed to customer service, safety, and providing high-quality engineering support and services to the public and other city departments.

Deadline: June 12, 2023

The Ideal Candidate

The ideal candidate will possess:

- A high level of professionalism
- Well-rounded knowledge of public works construction
- Customer service skills
- Ability to maintain precise records

The position requires excellent judgement, integrity, and organizational skills. Candidates must also have the ability to manage multiple projects simultaneously, have experience with thorough documentation of field activities and observations, and skill with report writing including effective enforcement correspondence.

The ideal candidate will be a self-driven individual, able to communicate effectively with the public, contractors, coworkers, and supervisors. The ability to exercise diplomacy and tact when interacting with the public, deal constructively with conflict, and develop effective resolutions is essential.

The ideal candidate will have construction experience in areas such as pipeline, concrete, storm and sewer facilities, pavement, traffic, street lighting, intelligent traffic systems, trails, parks, and Americans with Disabilities Act (ADA) compliance. ents, and local government policy and procedures is highly desirable.
