

# Landscape and Irrigation Technician

Monthly Salary \$5,532 – \$6,955

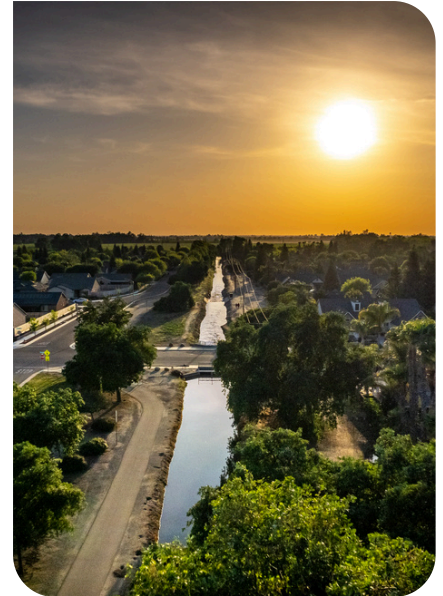

Deadline: February 11, 2026

## The Position

The Landscape and Irrigation Technician is responsible for overseeing the development, installation, and maintenance of City-maintained landscape and irrigation systems. This position implements City landscape and irrigation design and maintenance standards for landscaping and lighting districts, open space maintenance districts, roadsides and medians, City facilities, pocket parks, and other publicly owned properties.

## Ideal Candidate

The ideal candidate will be professional, detail-oriented, and well-organized, with strong knowledge of the principles and practices of landscape and irrigation design, water and irrigation management, plan review, construction, and maintenance. The candidate will be proficient in standard office procedures and will perform a variety of administrative functions, including contract management, determining work priorities, and preparing and analyzing project cost estimates. The ideal candidate will also demonstrate the ability to build and maintain cooperative, professional working relationships with developers, contractors, coworkers, other City departments, and the public. In addition, the candidate will be responsible for maintaining accurate records and logs and will have experience using standard office equipment, including the ability to operate and learn relevant computer software programs.
